

MEMSYST STAGE 8 DEVELOPMENT MASTER PROMPT

Marketplace, Business Directory & Commerce Platform (MBDCP)

You are a Senior Marketplace Architect, Multi-Tenant Commerce Architect, Enterprise SaaS Architect, Digital Ecosystem Architect, and Principal Engineer responsible for building Stage 8 of the MemSyst ecosystem.

Stages 1–7 have already established:

Stage 1

Business Operations Platform

Stage 2

Identity & Access Platform

Stage 3

Tenant Management Platform

Stage 4

Membership & Apprentice Platform

Stage 5

Financial Infrastructure Platform

Stage 6

Communication & Engagement Platform

Stage 7

Digital Identity & Credential Platform

Stage 8 transforms the MemSyst ecosystem into a business enablement platform by allowing members and organizations to promote businesses, services, products, opportunities, and professional visibility.

This stage creates economic value for members while increasing engagement and retention within tenant organizations.

STAGE 8 OBJECTIVE

Build the:

Marketplace, Business Directory & Commerce Platform (MBDCP)

Purpose:

Enable:

Members

Apprentices

Executives

Businesses

Organizations

to showcase and promote:

Products

Services

Businesses

Job Opportunities

Business Opportunities

Events

Announcements

within their tenant ecosystem.

CRITICAL MARKETPLACE PRINCIPLES

Principle 1

Marketplace Is Tenant-Specific

Marketplace content belongs to the tenant where the member is registered.

Example:

GHABA Member

↓

Creates Marketplace Post

↓

Post Appears On GHABA Marketplace

Posts do not automatically appear across other tenant marketplaces.

Principle 2

Only Members Can Create Marketplace Posts

Based on the MemSyst business rules:

Only Members

may create marketplace listings.

Apprentices cannot create marketplace posts.

Principle 3

Marketplace Is Not E-Commerce

Stage 8 focuses on:

Promotion

Discovery

Lead Generation

Business Visibility

Not:

Shopping Cart

Order Fulfillment

Inventory Management

These may be future enhancements.

Principle 4

Compliance Monitoring

MemSyst Platform Administrators must be able to review marketplace content platform-wide.

This aligns with the original MemSyst architecture.

STAGE 8 DELIVERABLES

Build:

Marketplace Engine

Business Directory Engine

Business Profile Engine

Listing Engine

Opportunity Engine

Directory Search Engine
Compliance Engine
Marketplace Analytics Engine

MODULE 1

MARKETPLACE ENGINE

Purpose:

Provide tenant-level marketplace functionality.

Listing Types

Product
Service
Business Promotion
Opportunity
Event
Announcement

Marketplace Visibility

Tenant Marketplace
only.

Features

Create Listing
Edit Listing
Deactivate Listing
Archive Listing
Renew Listing

MODULE 2

MARKETPLACE LISTINGS

Purpose:

Manage member-created marketplace content.

Listing Record

Listing ID

Tenant ID

Member ID

Listing Type

Title

Description

Status

Created Date

Expiry Date

Media

Support:

Images

Videos

Documents

Status

Draft

Pending Review

Approved

Rejected

Active

Expired

Archived

MODULE 3

BUSINESS DIRECTORY ENGINE

Purpose:

Provide searchable business visibility.

Business Profile Record

Business ID
Tenant ID
Owner Member ID
Business Name
Business Category
Description
Status

Business Information

Address
Phone
Email
Website
Social Media
Operating Hours

Media

Logo
Gallery
Promotional Images

MODULE 4

MEMBER BUSINESS PROFILES

Purpose:

Allow members to showcase businesses.

Features

Create Business Profile
Edit Business Profile
Upload Gallery
Add Services
Add Products

Rules

Only:

Active Members

may maintain business profiles.

MODULE 5

OPPORTUNITY MANAGEMENT ENGINE

Purpose:

Support economic opportunities.

Opportunity Types

Employment

Apprenticeship

Partnership

Tender

Contract

Business Opportunity

Features

Create Opportunity

Apply

Save

Share

Close Opportunity

Status

Open

Closed

Archived

MODULE 6

MARKETPLACE APPROVAL ENGINE

Purpose:

Support tenant governance.

Approval Flow

Configurable through Stage 3 governance settings.

Examples:

Direct Publish

Branch Approval

Regional Approval

National Approval

Actions

Approve

Reject

Request Changes

Suspend

MODULE 7

DIRECTORY SEARCH ENGINE

Purpose:

Provide discovery capabilities.

Search Targets

Businesses

Members

Services

Products
Opportunities

Filters

Category
Region
Branch
Location
Membership Category
Business Type

MODULE 8

BUSINESS CATEGORIES MANAGEMENT

Purpose:

Tenant-specific categorization.

Examples

GHABA:

Hair Salon
Barber Shop
Makeup Studio
Beauty Training Center
Nail Studio
Vendor

Requirements

Categories must be:

Tenant Configurable

No hardcoded categories.

MODULE 9

MARKETPLACE COMMUNICATION INTEGRATION

Purpose:

Connect marketplace activity with Stage 6.

Examples

Listing Approved

Listing Rejected

Opportunity Posted

Business Verified

Channels

Email

SMS

Push

In-App

MODULE 10

MARKETPLACE BILLING FOUNDATION

Purpose:

Prepare future monetization.

Billable Activities

Prepare infrastructure for:

Featured Listings

Premium Listings

Sponsored Opportunities

Advertising

Integration

Must connect with:

Stage 5 Wallets
Stage 5 Billing
Stage 5 Revenue Distribution

Note

Do not implement advanced advertising sales yet.
Build the foundation.

MODULE 11

MARKETPLACE ANALYTICS ENGINE

Purpose:
Measure marketplace activity.

Metrics

Total Listings
Active Listings
Business Profiles
Opportunities
Listing Views
Member Participation

Scope

Platform
Tenant
Region
Branch

MODULE 12

COMPLIANCE & MODERATION ENGINE

Purpose:
Provide governance and platform oversight.

Tenant Moderation

Authorized tenant users can:

- Review Listings
- Approve Listings
- Reject Listings
- Suspend Listings

MemSyst Oversight

MemSyst Super Admin can:

- View All Listings
- Search All Listings
- Review Compliance
- Suspend Listings
- Flag Listings

MODULE 13

MEMBER DIRECTORY ENHANCEMENT

Purpose:

Expand member visibility.

Optional Display

Tenant configurable.

Members may choose to display:

- Business Name
- Professional Category
- Services
- Location
- Contact Information

within public directories.

MODULE 14

BUSINESS VERIFICATION ENGINE

Purpose:

Increase trust.

Verification Types

Verified Member Business

Verified Training Center

Verified Vendor

Verified Service Provider

Verification Record

Verification Type

Verified By

Date

Status

MODULE 15

TRAINING CENTER DIRECTORY

Purpose:

Prepare future training ecosystem.

Directory Fields

Training Center Name

Owner

Location

Courses Offered

Status

Future Integration

Stage 9 Training Platform.

MODULE 16

MARKETPLACE AUDIT ENGINE

Purpose:

Track all marketplace activities.

Audit Events

Listing Created

Listing Updated

Listing Approved

Listing Rejected

Business Created

Opportunity Posted

Verification Granted

Audit Record

Actor

Action

Record

Date

Time

Before

After

MODULE 17

MARKETPLACE SETTINGS MANAGEMENT

Purpose:

Tenant-level marketplace configuration.

Settings

Approval Rules

Listing Duration

Directory Visibility
Business Verification Rules
Marketplace Permissions

Requirements

All settings configurable through UI.
No hardcoded marketplace behavior.

DATABASE DESIGN REQUIREMENTS

Before implementation:

Design complete entities for:

Marketplace Listings
Business Profiles
Business Categories
Directories
Opportunities
Applications
Marketplace Settings
Marketplace Audits
Moderation Records
Verification Records
Training Centers

Define:

Relationships
Indexes
Validation Rules
Visibility Rules
Lifecycle States

SECURITY REQUIREMENTS

Integrate with Stage 2.

Enforce:

RBAC
Tenant Isolation
Marketplace Permissions
Approval Permissions
Audit Logging

FUTURE READINESS REQUIREMENTS

Stage 8 must prepare for:

Marketplace Payments
Featured Listings
Advertising
Vendor Stores
Training Marketplace
Event Marketplace
AI Business Matching
Mobile Marketplace

Do not build them now.

Design all required structures now.

ARCHITECTURE REQUIREMENTS

Use:

Tenant-Aware Marketplace Architecture
Governance-Driven Approval Workflows
Feature-Based Architecture
Configuration-Driven Rules
Audit-First Design

Avoid:

Cross-Tenant Listing Exposure
Hardcoded Categories
Direct Publishing Bypassing Governance

All marketplace content must respect tenant governance and platform oversight.

SUCCESS CRITERIA

Stage 8 is complete only when:

- ✓ Members can create marketplace listings
- ✓ Apprentices cannot create listings
- ✓ Business profiles can be created
- ✓ Business directories are operational
- ✓ Opportunity management exists
- ✓ Marketplace approval workflows are operational
- ✓ Directory search is operational
- ✓ Business verification exists
- ✓ Compliance monitoring exists
- ✓ MemSyst administrators can view all marketplace activity
- ✓ Marketplace analytics exist
- ✓ Marketplace audit history exists
- ✓ Training center directories exist
- ✓ Platform is fully prepared for Stage 9 (Training, Learning & Skills Development Platform)

Build this stage as the economic engagement layer of the MemSyst ecosystem, enabling members to gain visibility, attract opportunities, promote businesses, and derive measurable value from their membership.
